

G'Day

To all the MRM's and MERO/MEMO's out there, this newsletter is especially for you.

We are excited to announce dates for our MRM and MERO/MEMO training courses – the last for 2020!

These three day training courses will be delivered by us. Who are we? We are an award winning team who will share our secrets from years of practical, on the ground experiences that will allow you to become a trusted and effective emergency management practitioner.

We hope to see you at one of our courses.

Cheers

Mat and Sue

## MRM Training

# MUNICIPAL RECOVERY MANAGER TRAINING COURSE

**1, 2 & 3 December, 2020**  
Lady Bay Resort, Warrnambool

**Would you like to gain knowledge, develop practical skills and build confidence to undertake your role as the Municipal Recovery Manager?**

The three day training course will be delivered by us, an award winning team who will share our secrets from years of practical, on the ground experiences that will allow you to become a trusted and effective MRM.

This unique and comprehensive training will take you on a journey that begins before an emergency right through to post disaster and includes real life experiences.

The journey will be full of practical hands on, realistic life like scenarios that will enhance your knowledge and understanding of the role of MRM.

Participating in the course will leave you motivated and equipped with new ideas on how to undertake and implement proven strategies to support your community.

If you want practical training that provides you with real life and best practice skills and knowledge, this is the course for you.

This is your last opportunity for 2020 and places are limited.

## EM News

### SEMP

The State Emergency Management Plan (SEMP) came into effect in Victoria on 1 October 2020. There are many changes for local government including the legislative requirement for all Councils to appoint an MRM.

### IGEM Report

In its report, IGEM makes eight observations, 33 findings, and five recommendations identifying good practice and opportunities for continuous improvement. The recommendations relate to the critical areas of risk management, community information, recovery, outcomes frameworks, and capability and capacity.
