

# IS YOUR COMMUNITY DISASTER READY?

## LET US HELP YOU GET READY!

Developing a community emergency management plan will build the capacity and capability of your community to prepare for, respond to, and recover from disasters.

### Our experience

The Six C's are award-winning emergency management specialists with over two decades of expertise in emergency management with extensive hands-on experience in supporting communities before, during, and after emergencies. We are dedicated to fostering safer and more resilient communities through our comprehensive and tailored approach to emergency planning, preparedness, response and recovery.

### Benefits

- **Community tailored plans:** No cookie cutter solutions.
- **Address specific needs:** Identifies and addresses your community's unique strengths and vulnerabilities.
- **Advocate for funding:** Use your plan to secure resources and build capacity.
- **Foster collaboration:** Enhance social cohesion through community involvement and inclusion.
- **Boost resilience:** Increase your community's ability to prepare for, respond to and recover from disasters.
- **Increased safety:** Protect lives by having a well thought-out plan.

### Our 6 step program

Our experienced facilitators will guide you through 6 steps, over two days, using a supportive and knowledgeable trauma informed approach to enable your community to create a robust and effective community emergency management plan that meets the unique needs of your community.
