WORKING IN THE FIELD POST DISASTER

Practical skills for community groups & volunteers supporting people after disaster

Working in the Field Post Disaster has been specifically designed for community groups and local volunteers who may find themselves supporting their community in the days, weeks and months following a disaster.

Topics include:

- What is emergency relief?
- What is disaster recovery?
- How we work together to support communities
- How disasters impact communities
- How disasters affect people
- How you could support communities post disaster
- How to communicate effectively post disaster
- Gathering information
- Looking after yourself

Delivered by award winning disaster recovery practitioners

Mat and Sue

PRACTICAL. COMMUNITY-FOCUSED. REAL-WORLD.

Delivered by The Six C's Group, drawing on over 40 years of lived experience of emergency response, relief & recovery and working alongside communities affected by disaster.
