

COMMUNITY EMERGENCY MANAGEMENT PLANNING

**ONE DAY.
ONE COMMUNITY.
A PATHWAY TO RESILIENCE.**

The Six C's award winning Community Emergency Management Planning (CEMP) program brings local people together for a practical one-day facilitated workshop to identify what matters most, understand local risks, recognise strengths and develop a clear pathway to being better prepared for emergencies and disasters.

A plan created by the community, for the community.

What your community walks away with:

- A completed Community Emergency Management Plan
- Clear priorities, objectives and actions
- Identified local strengths, resources and partners
- Practical mitigation and preparedness actions
- Stronger community connections and shared understanding
- A plan that can support funding and advocacy
- An editable digital Canva version that can continue to evolve with the community

**ONE DAY CAN
START A MUCH BIGGER JOURNEY**

Delivered by The Six C's Group, drawing on over 40 years of lived experience of emergency response, relief & recovery and working alongside communities affected by disaster.

Delivered by award winning disaster recovery practitioners

Mat and Sue
